

You are Home Safe at Club Paradise Palawan

Life, as we know it, has taken on a 360-degree turn. Now more than ever, the gift of space, of being one with nature, of breathing in fresh air and of spending precious moments with loved ones have taken a on a different level of appreciation. Everyone is anxious to hit the beach, bask under the warmth of the sun and appreciate life's simple pleasures.

While it is certain that these are what the majority would like to do, the people behind Club Paradise Palawan know that much thought and careful deliberation come into play before a decision to travel is made. That is why, the resort have incorporated more rigid cleanliness and sanitation protocols in all areas of the resort operations so that guests can fully enjoy a beautiful, worry-free stay at Club Paradise Palawan.

From guest's arrival at the airport, during check-in, while at the resort, in the restaurants and inside the guest's suites, Club Paradise Palawan strictly follow the guidelines of the Department of Tourism and the requirements of the local government of Coron. Evident in all the signages, floor and seat markers and videos played in the vans, public areas and guest rooms is the genuine care that goes behind the detailed reminders on wearing face masks, on social distancing and on observing frequent hand hygiene. The resort has secured modern facilities and cleaning equipment to ensure the safety of everyone. This includes the use of UV disinfection which provides rapid and effective inactivation of bacteria, viruses and protozoa through the exposure to the germicidal wavelength (254 nanometer) of UV light which results to the incapability of bacteria and viruses to reproduce and infect.

Furthermore, as a testimony to the resort's commitment to safety, Club Paradise Palawan has partnered with **Lysol**, global leader in health and hygiene products. In July 2020, the United States Environmental Protection Agency (EPA) has approved Lysol as products that are proven effective against SARS-CoV-2 (The **virus** that causes a respiratory disease called **coronavirus** disease 19 (**COVID-19**)). These Lysol products are also being used in all areas of resort.

As shared by Mr. Joegil Escobar, the Hotel Manager of Club Paradise Palawan, “Taking good care of our guests and colleagues is the very core of the Discovery Resorts’ values. We consistently think of ways to safely interact with them without compromising their safety and the attention to detail and service that people have known to love about Discovery.”

He adds, “Keeping our promise for a safe retreat may mean more hours of preparation, more rigorous cleaning methods and more meticulous ways of doing things but we gladly embrace all these because in every step of this new normal is a sincere gesture of thoughtfulness and concern for our guests’ wellbeing.”
